RE: NVRA public disclosure request

Dear Disclosure Officer:

I am writing on behalf of the Public Interest Legal Foundation to request inspection of records related to your office's voter list maintenance obligations under the National Voter Registration Act of 1993 (NVRA).

The Public Interest Legal Foundation is a nonpartisan, nonprofit, public-interest law firm that is interested in list maintenance procedures designed to protect the integrity of American elections.

The National Voter Registration Act of 1993, 52 U.S.C. § 20501 *et seq.*, requires your office to make available for public inspection "all records concerning the implementation of programs and activities conducted for the purpose of ensuring the accuracy and currency of official lists of eligible voters." 52 U.S.C. § 20507(i); *See also, Project Vote v. Long*, 682 F.3d 331, 334-335 (4th Cir. Va. 2012) (The NVRA requires local election officials to provide list maintenance records to the public).

Pursuant to Section 20507(i) of NVRA, we request that your office reproduce or provide the opportunity to inspect the following:

1. All documents and records of communication received by your office from registered voters, legal counsel, claimed relatives, or other agents since January 2009 requesting a removal or cancellation from the voter roll for any reason related to non-U.S. citizenship/ineligibility. (An enclosed letter serves as an example of a similar request received in a separate jurisdiction) Please include any official records indicating corresponding maintenance actions undertaken thereafter.
2. All documents and records of communication received by your office from registered voters, legal counsel, claimed relatives, or other agents since January 2009 requesting a removal or cancellation from the voter roll claiming wrongful registration or no prior intent to register, regardless of eligibility. Please include any official records indicating corresponding maintenance actions undertaken thereafter.

If you would like to produce them in paper or digital form, we can dispense with the need to visit your office.

Thank you for your time and attention to this matter. Please feel free to utilize the contact information below to arrange a data transfer or inspection.

Thank you for your service on this matter.

Sincerely,

To Whom It May Concern,

Recently, I renewed my New Jersey driver's license, while completing the renewal application; despite the fact that I stated on my renewal application and verbally expressing that I did not wish to register, the DMV employee erroneously filled out a voter registration form with my information without my consent. I am not a US citizen, therefore not eligible to do so. Please disregard the application filed.

I would appreciate receiving written confirmation of this cancellation. Additionally if there are any questions or anything else that is needed from me, please do not hesitate to contact me at 201-374-1430 or 201-888-2072. I look forward to your prompt attention to this matter.

Sorry for the inconvenience this might cause.

Thank you.

RE: NVRA public disclosure request

Dear Supervisor:

I am writing to request inspection or copies of records related to your office's voter list maintenance obligations under the National Voter Registration Act of 1993 (NVRA).

The National Voter Registration Act of 1993, 52 U.S.C. § 20501 *et seq.*, requires your office to make available for public inspection "all records concerning the implementation of programs and activities conducted for the purpose of ensuring the accuracy and currency of official lists of eligible voters." 52 U.S.C. § 20507(i).

Pursuant to Section 20507(i) of NVRA, I request that your office reproduce or provide the opportunity to inspect the following:

1. Documents regarding all registrants who were identified as potentially not satisfying the citizenship requirements for voter registration from any official information source, including information obtained from the various agencies within the U.S. Department of Homeland Security, Georgia Department of Driver Services, and from the Elections Division of the Georgia Secretary of State's Office since January 1, 2006. This request extends to all documents that provide the name of the registrant, the voting history of such registrant, the nature and content of any notice sent to the registrant, including the date of the notice, the response (if any) of the registrant, and actions taken regarding the registrant's registration (if any) and the date of the action. This request extends to electronic records capable of compilation.
2. All documents and records of communication received by your office from registered voters, legal counsel, claimed relatives, or other agents since January 1, 2006 requesting a removal or cancellation from the voter roll for any reason related to non-U.S. citizenship. Please include any official records indicating maintenance actions undertaken thereafter.
3. All documents and records of communication received by your office from jury selection officials—state and federal—since January 1, 2006 referencing individuals who claimed to be non-U.S. citizens when attempting to avoid serving a duty call. This request seeks copies of the official referrals and documents indicating where your office matched a

claim of noncitizenship to an existing registered voter and extends to the communications and maintenance actions taken as a result that were memorialized in any written form.

Understanding that federal file retention laws may impact some disclosures, an optimal grouping of documents presented per registered voter disclosed would contain the following:

- The completed voter application form (redacted where necessary to prevent disclosures of claimed Social Security number and signature);
- Referral documents/transmissions for new or updated voter registration applications provided by state agencies charged with National Voter Registration Act (Motor Voter) duties;
- Records indicating the “voter profile” or “voter view” or similar feature provided within the computerized statewide voter registration database which details all information kept per voter, to include but is not limited to:
 - Full name on file (including previous names)
 - Date of birth
 - Voter ID number
 - Voter registration date (including previous dates of registration)
 - Date of last maintenance/update action
 - Reason code(s) for previous maintenance action(s)
 - County of registration
 - Detailed address information history (residential and mailing)
 - Political party designation history (if claimed/recorded)
 - Registration method history (e.g. self, NVRA agency transaction, third-party, etc.)
 - Assigned voting districts history
 - Election participation history in full
 - All internal memoranda stored within each “profile”
- All letters, postcards, and other mailings sent from your office to the voter in question with notations for types of postage or method of delivery indicated where possible;
- All letters, emails, logged phone calls, documents, and other communications from the voter in question to your office—including those communications from legal counsel or claimed relatives on their behalf—that is either affirmatively sent by the voter or in response to a mailing received by your office or other official entity;
- All documents your office may receive from federal entities to include but are not limited to the U.S. Department of Homeland Security/USCIS detailing inquiries regarding registered voters in your county and your responses given;
- All documents your office may generate upon request to the voter or federal agency concerned with immigration matters for the purpose of detailing a registration status history and voting history;

- All documents and communications between your office and the registered voter in question with respect to pending immigration matters; and
- Any documents sent by your office to the voter to require that an affirmation of citizenship or noncitizenship be given in writing with responses included, where applicable.

If you wish to dispense with a public inspection and provide copies of these records instead, please send them to following address:

32 E. Washington Street
Suite 1675

1. All emails and other written correspondence (including attachments/enclosures) between the Election Supervisor’s office and any of the third parties listed below that relate to “programs and activities conducted for the purpose of ensuring the accuracy and currency of official lists of eligible voters.” 52 U.S.C. § 20507(i).

Thank you for the update. Here is a suggested plan forward.

1. The time restraints presented by the runoff are very understandable.
2. Redactions: we'd prefer to keep birth date information unredacted as NVRA does not protect such data in reproduction or inspection scenarios. We certainly have no interest in seeing partial or full Social Security numbers. We suggest a compromise on registration agency information. The NVRA certainly protects from disclosing specific agencies used—but we would appreciate a limit on redactions to the point where we are able to determine that a registration file was initiated or updated via *an* agency (as opposed to naming it). We have a critical research interest in discerning between registrations that were self-submitted/mailed, third-party drive, or agency transactions.
3. Retrieval/reproduction: we agree to the reverse chronological retrieval process and would be happy to accept responsive documents in batches as described.

Thank you for your service.

Mr. Churchwell,

I have obtained further information regarding the provisions of the NVRA and I apologize for confusing this request with the Georgia Open Records Requests that I normally receive. We will not be able to start retrieving documents until after the December runoff is certified on December 10th. I am currently in the process of clarifying with counsel the amount of redaction that is required. Your request indicated that social security numbers can be redacted, but I believe we will also be required to redact the registration agency through which the voter registered and the date of birth.

Once retrieval commences, do you want to receive records by year as they are retrieved, or wait until all 12 years have been collected into a transferable format? I suggest working on current voters and moving backwards by year, but we can also start at the oldest records and move forward if you prefer.

Mr. Churchwell,

Regarding redactions, our attorney advises that based on Project Vote v Kemp (attached) we will need to redact the birth date. However, we will redact only the month and day and leave the year. We will attempt to leave enough information to determine that there was an agency registration without revealing the name of the particular agency. We will also have to redact any driver's license numbers, email addresses or telephone numbers, if present on the records.

Our attorney also asks that you please clarify the years being requested. Are you requesting documents since January 1, 2006 or should the request have said 2016 instead? The question stems from NVRA section 8(i) which requires maintenance and public inspection of at least 2 years of documents.

Subject: RE: NVRA Public Disclosure Request - PILF

Mr. Churchwell,

I have obtained further information regarding the provisions of the NVRA and I apologize for confusing this request with the Georgia Open Records Requests that I normally receive. We will not be able to start retrieving documents until after the December runoff is certified on December 10th. I am currently in the process of clarifying with counsel the amount of redaction that is required. Your request indicated that social security numbers can be redacted, but I believe we will also be required to redact the registration agency through which the voter registered and the date of birth.

Once retrieval commences, do you want to receive records by year as they are retrieved, or wait until all 12 years have been collected into a transferable format? I suggest working on current voters and moving backwards by year, but we can also start at the oldest records and move forward if you prefer.

Regarding the attached request:

- We estimate that it will take approximately 96 hours to retrieve the documentation for the 12 years being requested at a rate of \$17.35 per hour for the lowest paid employee qualified to do the work. Redaction of confidential information may be necessary and will likely increase the number of hours required to complete the work,

If you approve the estimated cost of \$1,665.60 please let me know. We can begin this work after the December 4, 2018 runoff is certified and I will contact you when the documents are ready. At that time, a final payment amount would be calculated. As soon as payment is made, a flash drive will be mailed.

Mr. Churchwell,

Regarding redactions, our attorney advises that based on Project Vote v Kemp (attached) we will need to redact the birth date. However, we will redact only the month and day and leave the year. We will attempt to leave enough information to determine that there was an agency registration without revealing the name of the particular agency. We will also have to redact any driver's license numbers, email addresses or telephone numbers, if present on the records.

Our attorney also asks that you please clarify the years being requested. Are you requesting documents since January 1, 2006 or should the request have said 2016 instead? The question stems from NVRA section 8(i) which requires maintenance and public inspection of at least 2 years of documents.

Thank you,

We certainly have no interest in seeing partial or full Social Security numbers. We suggest a compromise on registration agency information. The NVRA certainly protects from disclosing specific agencies used—but we would appreciate a limit on redactions to the point where we are able to determine that a registration file was initiated or updated via *an* agency (as opposed to naming it). We have a critical research interest in discerning between registrations that were self-submitted/mailed, third-party drive, or agency transactions.
3. Retrieval/reproduction: we agree to the reverse chronological retrieval process and would be happy to accept responsive documents in batches as described.

Thank you for your service.

RE: NVRA public disclosure request

Dear Director Eveler:

We have received your November 19, 2018 email acknowledging receipt of our November 7, 2018 request for records under the National Voter Registration Act.

1. The Foundation's request is made pursuant to the National Voter Registration Act, not the Georgia Open Records Act.

Your response suggests that you are processing our request under the Georgia Open Records Act. Our request is not made pursuant to the Georgia Open Records Act. As stated in our letter, our request is made pursuant to the National Voter Registration Act of 1993 (NVRA), specifically, Section 20507(i), which requires election officials to make available for inspection and photocopying “all records concerning the implementation of programs and activities conducted for the purpose of ensuring the accuracy and currency of official lists of eligible voters.” 52 U.S.C. § 20507(i).

2. The NVRA permits charges only for photocopying at a reasonable cost.

Your response eludes to hourly personnel costs (\$17.35 per hour) necessary to “retrieve the documentation” responsive to our request. In total, you estimate a cost of \$1,665.60 to fulfill the request. It is therefore worth noting that the NVRA does not permit your office to charge requesters for personnel time. The NVRA permits your office to charge only for “photocopying at a reasonable cost.” 52 U.S.C. § 20507(i)(1). Where possible, we prefer to receive the requested information via electronic transmission. Where that is not possible, we ask that you provide a revised cost estimate for photocopying costs for the responsive records or mailing costs for transmission via flash drive or other removable media.

3. State-law exemptions for withholding responsive records are not applicable to requests made pursuant to the NVRA.

Your response also suggests the county might redact confidential information contained in responsive documents. It is therefore also worth noting that the NVRA does not permit your

office to withhold records or information under exemptions found in state law. The NVRA requires disclosure of “all records” related to your list maintenance activities, with only two exceptions: “records relate[d] to a declination to register to vote or to the identity of a voter registration agency through which any particular voter is registered.” 52 U.S.C. § 20507(i)(1). Exemptions grounded in the Georgia Open Records Act or other state laws are thus inapplicable to our request.

We will, however, consent to the redaction of social security numbers, to the extent they appear in any responsive records.

Thank you for your time and attention to this matter. Please feel free to utilize the contact information for further communication, including to arrange a data transfer or inspection.

Sincerely,

A handwritten signature in black ink, appearing to read 'Logan Churchwell', with a stylized, flowing script.

Mr. Churchwell,

I have asked my Information Services contact to tell me how much work effort is involved in doing an electronic search of email records going back to 2016. This is his response:

My server administrators have determined that a search of this nature would take about 24 man-hours to complete. Based on an hourly rate of \$39.85, the cost for that search would be \$946.80.

In addition, we would need to obtain a listing from you of employees in your office during the time frame in question of January, 2016 to Present to compare the results and provide an accurate search.

If the results of this search are related to "programs and activities conducted for the purpose of ensuring the accuracy and currency of official lists of eligible voters." they would be provided under the provisions of the NVRA. If they relate to other matters, we would require payment under the Georgia Open Records Act for the time associated with retrieving those items.

I will notify you when documents are available.

Dear Applicant:

Thank you for attempting to register to vote.

As required by law, data files are sent daily to the Department of Driver Services (DDS) for verification of information provided on voter registration applications. The information is kept confidential and matched with motor vehicle records and against records at the Social Security Administration.

We could not verify that you are a U.S. citizen, and as a result your application is in pending status.

The back of this letter contains a list of **documents you may include** to prove your citizenship. You may provide one of these documents by regular mail, fax them to 770/528-2519 or scan and email as an attachment to info@cobbelections.org. Please note that the passports are not readable if faxed.

If you have a driver's license or State ID card, please also separately inform DDS about your citizenship status. Call 678/413-8400 or access their Website at www.dds.ga.gov to find out how to update your status.

If you are eligible to vote in any upcoming elections, and you go to vote before we receive the necessary information, you will be given a Challenged (paper) ballot when you go to vote. We must receive your information by Friday after the election so we can count your ballot.

Please let us know if you have any questions by emailing info@cobbelections.org or by calling 770/528-2581. If this letter was sent to an **incorrect address**, please use the enclosed form to register at your new address. If you send proof of citizenship, and your other information is correct, you do **NOT** need to fill out the enclosed application.

Thank you for your interest in voting!

Sincerely,

Beau Gunn, Registration Manager
